

Transforming our Digital Landscape: The Launch of the D'Hub Platform

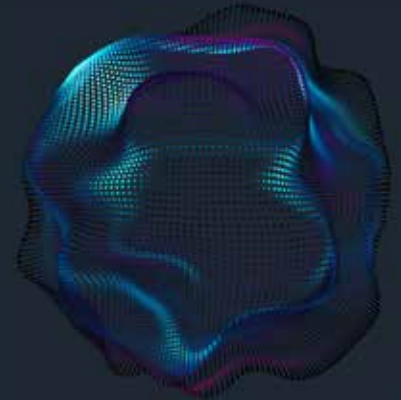

■ The Ministry of Digital Transformation is thrilled to announce the launch of the Developers' Hub Initiative, also known as D'Hub, which took place on Tuesday, June 20th, 2023.

This groundbreaking initiative aims to empower the talented software development community across Trinidad & Tobago, paving the way for a digital revolution and unparalleled digital services.

Future in Focus:

A group of local developers keenly follows the Developers' Hub discussion - the promising potential of the next generation in our digital transformation journey.

Your future starts with D'Hub... Are you Ready?

Charting the Digital Course: Senator the Honourable Hassel Bacchus, Minister of Digital Transformation, engages local developers with a charismatic presentation on the Developers' Hub and its pivotal role in the national digital transformation initiative. A moment of connection, inspiration, and shared vision for our digital future.

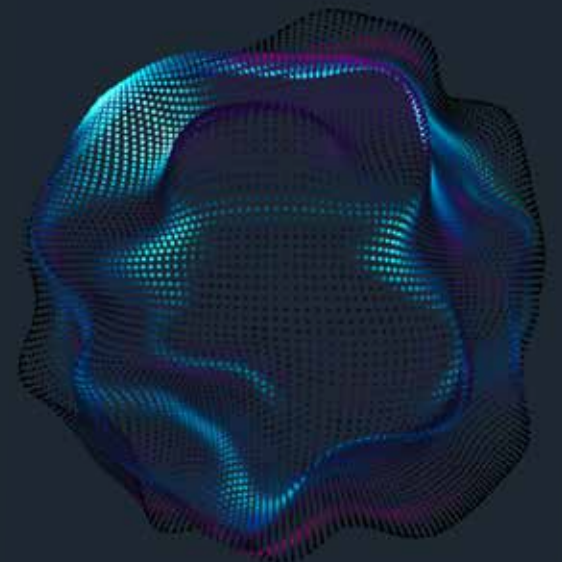

■ Central to the D'Hub vision is the collaborative innovation in designing customized mobile and web solutions specifically tailored to the needs of the public sector, businesses and citizens. Senator the Honourable Hassel Bacchus, Minister of Digital Transformation, passionately emphasized the Ministry's unwavering commitment to fueling digital transformation in the public sector.

Bridging the Gap: Devindra Ramnarine, Digital Transformation Advisor, Ministry of Digital Transformation addresses members of the local software developer community during a special hybrid D'Hub Q&A session for in-person and virtual attendees.

Driving Change: Sergio Rios, Chief of Operations for the Inter-American Development Bank (IDB) in Trinidad and Tobago, shares his insights with the audience at the Developers' Hub launch, underscoring the significance of this milestone in our digital transformation journey.

■ During the event, the exceptional work of the development team behind the D'Hub platform was applauded as they represented a true testament of the platform and the ecosystem in itself. Team members were able to learn new skills, collaborate, innovate, develop a high quality product and gain valuable experience.

D'Hub provides a dynamic platform for experienced and aspiring developers to immerse themselves in software development and acquire the necessary skills, tools and opportunities they need to excel in their careers or run a successful startup / business.

Meet the D'Hub Development Team: (L-R) Daniel Saunders, Front-End Developer; Rajeev Harripaul, Digital Transformation Associate; Jacques Pierre, Web Developer; Jordan Lake, Digital Transformation Associate; Dorian Dyer II, ICT Director; Brandon Joseph, Associate Professional; Derryck Joseph, Front-End Developer; Josh De Freitas, Associate Professional, Janelle Kowlessar, Project Manager
Not pictured: Marcus Rawlins, Business Systems Analyst; Thion Lord, Content Strategist and Jamie Lee Yuen, Project Comms. Specialist

- Members of D'Hub will gain access to a wealth of valuable resources, including courses from renowned institutions like the Linux Foundation and several other esteemed Edu-Partners.

This transformative initiative is projected to catalyse economic growth and development, foster job creation, reduce dependence on imported software solutions, and help propel Trinidad and Tobago on its digital transformation journey.

Partnership of Experience: Representatives from the Ministry of Digital Transformation, iGovTT and NRD Companies (Lithuania) embody the spirit of collaboration at the heart of the Developers' Hub. Pictured from left to right: Julius Zubė, Deputy Head of the Consultancy Division, NRD Companies; Wendell Mitchell, National Chief Digital Officer, Ministry of Digital Transformation; Inshan Meahjohn, CEO, iGovTT; Ieva Žilionienė, Consulting Business Lead, NRD Companies; Senator the Honourable

- The Ministry invites you to join us as we harness the power of digital transformation to enhance the quality of life and drive the economic vitality of Trinidad and Tobago. Together, we can unlock endless possibilities and create a thriving digital ecosystem.
