**WeLearnTT Reaffirms Commitment to Inclusivity in ICT Training**

The Ministry of Digital Transformation wishes to thank the public for the overwhelming support and interest shown in our Information Communication and Technology (ICT) training for women with global skills provider, SimpliLearn.

This opportunity holds the promise of creating a substantial and positive influence in the lives of women passionate about ICT in Trinidad and Tobago. Recent studies, including the 'Labour Skills Assessment of the ICT Platforms and Services Sub-sector in Trinidad and Tobago,' reveal a noteworthy trend. While there exists relatively equal access to ICT education at the tertiary level, a noticeable disparity emerges as more men graduate with highly sought-after and critical qualifications, such as those in Cybersecurity and Data Science.

This initiative is just one part of our broader efforts to enhance digital literacy for everyone.

In addition to this opportunity, WeLearnTT offers a range of ICT training and mentorship that are open to all citizens. These include ICT Vacation Camps, Digital Literacy Programmes and technical training through one of the Ministry's flagship projects, Developers Hub (D'Hub), and our partners – Linux Foundation, CISCO, Coursera and Commonwealth of Learning (Simplilearn). These opportunities are designed to cater to diverse backgrounds, skill levels, and interests.

All citizens aged 18 and older are encouraged to join WeLearnTT via this registration link: <https://welearn.gov.tt/registration/> to explore ICT training and mentorship at no cost.

---

**About WeLearnTT – The Ministry's Digital Skills Development Programme**

WeLearnTT, designed with our citizens in mind, provides access to training and mentorship in the use and application of digital technology. In an era where technology is shaping many aspects of our lives, this programme has the potential to bridge the digital divide by providing accessible and comprehensive training to all citizens from diverse backgrounds.
